HostMate

Budget fit, event hit! • Website Design Specification

Document Rev: 1.0
Target Platform: Web & Mobile

1. EXECUTIVE DESIGN VISION

The visual experience of **HostMate** is designed as a high-end digital concierge desk for event management. Moving away from utilitarian software aesthetics, HostMate blends warm minimalism, rich typography, champagne gold accents, and fluid micro-interactions to deliver a calm, structured, and luxurious planning environment across weddings, milestone birthdays, and community gatherings.

2. PRIMARY COLOR PALETTE

Champagne Gold
#D4AF37

Royal Charcoal
#1A1D20

Soft Cream Linen
#FAFAFD

Emerald Accent
#1B4332

3. DESIGN SYSTEM & TYPOGRAPHY

Typography Hierarchy: Headings utilize luxury editorial serif typefaces (*Playfair Display* for English, *Noto Serif Devanagari* for Hindi). Body elements and data UI use clean, high-legibility sans-serif fonts (*Plus Jakarta Sans* / *Noto Sans Devanagari*).

Surface Language: Clean sharp borders (1px solid `#E2E8F0`), tinted surface panels, and subtle elevation fills. Soft glassmorphism is reserved strictly for modal overlays and sticky control bars.

4. CORE FEATURE LAYOUT SPECIFICATION

Module	Primary Layout Structure	Key Visual & Interaction Elements
1. Setup Wizard	Centered full-screen modal container	3-step wizard, interactive event-type cards, budget caps generator.
2. Budget Tracker	High-contrast header banner + split table	Budget consumption bar, auto percentage preset split, balance dues.
3. Milestone Timeline	Vertical thread layout with phase collapsibles	Early/Mid/Final phase filters, Day-Of run sheet tab, PDF exporter.
4. WhatsApp RSVP	Dual view: Host dashboard & Guest web form	One-click link copy, live headcount counters, dietary trackers.
5. Vendor Hub	3-column grid card portfolio view	Agreed pricing, document preview lightbox, auto payment alerts.

5. BILINGUAL INTERFACE MAPPING (EN / HI)

HostMate provides native, full-parity client-side switching between English and Hindi across every interface screen, micro-copy string, and status tag.

Interface Component	English Copy	Hindi Copy (हिन्दी)
Brand Tagline	Budget fit, event hit!	बजट सही, इवेंट हिट!
Event Types	Wedding / Birthday / Community Event	शादी / सालगिरह / सामाजिक आयोजन
Budget Metrics	Total Spent / Balance Due	कुल खर्च / बकाया राशि
Timeline Phases	Early / Mid / Final Week / Day-Of	शुरुआती / मध्य / अंतिम सप्ताह / कार्यक्रम दिवस
RSVP Form	Will you be attending? (Veg / Non-Veg)	क्या आप शामिल होंगे? (शाकाहारी / मांसाहारी)

6. TECHNICAL ARCHITECTURE & TECH STACK

The platform uses a decoupled frontend-backend architecture engineered for rapid mobile page loads, smooth client-side state synchronization, and simple native mobile/WhatsApp deep integrations.

Frontend Layer

Next.js & React

Tailwind CSS for responsive luxury layout styling. Framer Motion for subtle accordion transitions and progress bar animations.

Internationalization

react-i18next

Instant zero-reload language switching between English and Hindi with stored user language preference.

Backend & Database

Node.js & Supabase

PostgreSQL relational database storing budgets, task states, guest lists, and vendor profiles with instant sync.

Document Storage

Cloud Storage & PDF

Secure quote document uploads and client-side PDF generation for Day-Of schedules using `@react-pdf/renderer`.

7. IMPLEMENTATION ROADMAP CHECKLIST

Milestone	Core Focus Areas	Deliverable
Phase 1: Foundations	Design System Tokenization & Setup Wizard UI	Working Setup Modal & Theme Engine
Phase 2: Data Engines	Budget Calculator & Dynamic Milestone Checklist	Interactive Financial & Task Dashboards
Phase 3: RSVPs & Vendors	WhatsApp Native Guest Form & Vendor Storage	Live Guest Management Portal
Phase 4: Launch Prep	Hindi Localization Audit & PDF Export Testing	Production-ready MVP Release
